Use of Double Side Banners

Double sided banners are a great way to get your business in a number of settings. These banners can be used both indoor and outdoor, and come in a heavy-duty vinyl material that is durable and can withstand the elements as well as any impressive uses. Double sided banners can be conveniently hung from a variety of locations, and are also versatile in that they can be hung or placed in a number of ways. More specifically, double sided banners can be hung from a ceiling, placed on inexpensive hardware, on a transparent surface with certain accessories, or using a banner stand! Whether you are looking to get the word out about your business, deliver a message at a weekend long conference or are in need of a banner for your next trade show, double sided banners are the perfect way to get your business noticed!

Proper Care and Cleaning a Double Side Banner

In order to keep your banner looking its best, it's important to clean it on a regular basis. Cleaning your banner not only will help in warding off dirt or debris, and allowing it to last (it's compliment) will help to prevent mildew or mold. For easy cleaning, simply wash your banner with a mild soap and lukewarm water. Any solution in your banner should come out with a simple rinse. Be sure to allow your banner to dry before use! If your double sided banner, you can ensure that it will look great for years to come.

Installation of a Double Side Banner

You can create a large blank to fit your needs and then go ahead and hang it up! Double sided banners are a versatile marketing tool that can be used in a number of different ways. The advertising option is ideal for a wide range of sports including malls, stadiums, arenas, and more. Double sided banners are also a great option for promotion-pushing factors, common clothing and leisure companies, and more. Double sided banners are also ideal for traffic coming and going. Regardless of the information being displayed, double sided banners are a great option for any companies, or a more specific product marketing endeavor, as they are sure to get the attention of those looking for your attention and getting that important information out. So if you're looking to get the word out about your message out there, consider using double sided banners.

Custom Vinyl Banners Finish Options

When placing your order, it's a good idea to come and decide on the following decision options. **Four Hems and grommets**

Standard hems, are one of the economical and most durable types of hems available for vinyl banners. Hemmed hems are created by folding the edges of the banner material over and sewing it together to form a clean, strong hem. This type of hem is reinforced with a rope or webbing material to provide extra protection. Additionally, welded hems help to maintain the shape of the banner and prevent it from curling or fraying. At Custom Banner, we offer four hems on all our banners to ensure that our customers receive the highest quality product possible.

Grommets

Grommets are small metal rings that are used to provide reinforcement to the holes in the banner material. Due to the contents of vinyl signs, grommets are usually placed every 2 feet around the perimeter of the banner, providing the points for hanging or attaching the sign. This helps to distribute the weight of the sign evenly across the material. In addition, grommets can aid the wind in windows by any wind that may be present, helping to prevent the banner from prematurely wearing. As a result, grommets play an important role in the durability of signs are viewing and durable.

Pole Pockets

Our Pockets are a handy addition to any banner. They allow for rigid options or dowels to be inserted into the sides of the banner. This helps to keep the banner taut, reducing the distortion of weight. Additionally, opposing pole pockets can be connected with a rope or cable. This helps to add the perfectly-taut of the banner will be exposed to wind or other elements they could cause it to flutter or billow. Pole pockets are a great way to ensure that your banner looks its best.

Webbing

Add Slits, also known as Wind Flaps, reache discussion: By cutting small holes over the banner, you can help to reduce the amount of wind resistance that it catches. This is perfect for outdoor banners, as it helps to keep them looking their best for longer periods of time. In addition to improving the aesthetics of the banner, mesh ba - the wind slits are handy enclosable and won't affect the overall look of your banner. They are also a great way to improve outdoor conditions, which are not definitely, heavily connecting.
