Custom Vinyl Banners Finish Options

Before placing your order, it's a good idea to view and decide on the following detailed options. **Free Hems and Grommets.**

HEMS

Hems consist of one inch of the Custom Banner material folded over to the backside of the banner and heated together to form a clean and strong one-inch hem. We recommend having hems on all banners to increase their strength and durability of the banner. . We offer free hems on all our banners. Hemmed edges are typically used to reinforce the sides of vinyl banners. This helps to maintain the banner's shape and prevent stretching.

Grommets

Provide a convenient method for hanging or attaching vinyl signs at regular points. This distributes the weight and helps to keep the vinyl signs from sagging. Hems Hemmed edges are typically used to reinforce the sides of vinyl banners, helping maintain the banner's shape and prevent stretching. This is particularly helpful when grommets are used on vinyl signs.

POLE POCKETS

Pole Pockets allow for rigid poles or dowels to be inserted along the edges of the banner. This allows for a more even distribution of the banner's weight to prevent sagging. Opposing pole pockets can also be used to make the banners more rigid.

WIND SLITS

If you choose this option, we will cut small half-circles into your banner to reduce wind resistance. This feature is perfect for outdoor banners, as it helps to prevent twisting and flapping in the wind.

Affordable Vinyl banners

Banners and posters are affordable for clients; thus, this cost efficiency is a benefit of this type of advertising. **Banners** guarantees that more and more customers notice your business at the lowest cost possible, which is a key to your success. Even with little money at your disposal, you can create a professional banner to boost your sales. Another tool you can choose is using an outdoor custom banner. It is one of the most efficient and affordable means of giving useful information and broadening the base of customers. If a message in a banner is mostly clear and concise, this billboard has a crucial impact. Contact our company to get a perfectly designed and formatted banner to advertise any kind of event. Vinyl Banners Durability and Life
The life of a banner really depends on how it is being used, stored, and taken care of. The more it is being used, the faster it will wear out. Although, typically banners last for anywhere between 2-6 years. The most they can serve you is 5-10 years or the least 1-2 years. Naturally, if the banner is being used outdoors 24/7, due to the weather conditions and the sunlight, it will wear out more quickly than if used sporadically, or if used indoors. It is not difficult to maintain a banner and store it, but the maintenance really determines its lifespan. If you are planning to mount your banner outdoors, you are better off getting an extra durable 18-ounce vinyl, and even get wind slits, if your banner will be placed against a fence, or hang freely in the air, where the wind will blow through it. Also, reinforced grommets are recommended along with your banner if you are planning to order grommets to hang your banner, as the reinforced corners will ensure extra support to the corners of your banner, and prevent ripping. When storing your banner for later use, we recommend that you roll it and keep it away from dust and extreme heat, as opposed to folding it. When the banner is rolled as opposed to folded, you are preventing the banner from creasing. Though, if the banner is too large, and it is easier to fold over the roll, don't stress out too much, you can always get rid of the creases when hanging or laying the banner flat, and by applying light heat to the banner, but not too close to it. If you have any additional questions on how to take proper care of your banner and ensure a longer lifespan, don't hesitate to contact us. We will be happy to assist you!

POPULAR SIZES OF CUSTOM BANNERS

Vinyl banner sizes start from 2' x 2' but can be customized to reach 150' in length and width 10' for a horizontal banner and 150' in height and width 10' for vertical banners. Banners wider than 10 feet will be made of two vinyl pieces and then connected vertically in the middle.
