What resolution should I use for the artwork?
 The minimum resolution should be 300dpi for most standard services and 360dpi if the artwork is used for billboards. The image file should be in inches. For example, if you want your artwork to be 3' x 2' then the image should be 36" x 24".

What colors should be accepted?
 We provide full-color printing in CMYK for all types of banners, signs, and related products. There is no need for your printing in color. However, if you are printing your sign, we accept RGB as well. Whether CMYK or RGB, we always strive to deliver the best results to meet your specific color requirements.

What kind of font do you support?
 At BannerStore.com, you don't have to worry about fonts. However, we suggest the standard safety of using a sans-serif font. If the banner design that you are using has a font that you choose from our font library and personalize the text for your business as well as the sign. If you are uploading your file, we recommend outlining all your artwork's fonts properly before exporting the file for printing or uploading on our site. This will help you avoid any delay in the final printing work.

Do I have to add bleed to my artwork?
 If your design contains the full banner surface, we will use extra material for the banner finish with a hem and grommet pockets. You do not need to add bleed to your artwork.

What size do you offer for banners?
 Sizes of Custom Banners start from 2' x 2' but can be customized to reach 100' in length and 100' in height. We offer vertical banners and billboards. Billboards are 10' x 10' or 12' x 12' for vertical banners. The size of your Custom 12' x 12' or Banner Signage depends on your order.
