• Heat Welded Hems for extra strength on outdoor use
• Fast Turnaround and shipping
• Durable, weather-resistant printing materials
• Professional full-color print by Bannerstore.com
• UV and water-resistant ink
• Quick turnaround and production time

2x3 Custom Banner Material:

13oz Vinyl

13 oz vinyl banner material refers to a type of vinyl commonly used for making custom vinyl banners, signage, and other large-format displays. It is named "13 oz" because it typically weighs 13 ounces per square yard, indicating its thickness and durability.

There are two main types of 13 oz vinyl banner material based on their surface finish:

1. **Matte Vinyl**: Matte vinyl has a non-reflective surface finish, which reduces glare and ensures visibility even in bright lighting conditions. It provides a professional look and is suitable for indoor and outdoor applications.

2. **Gloss Vinyl**: Gloss vinyl has a shiny, reflective surface finish that enhances colors and graphics, making them more vibrant and eye-catching. It is ideal for applications where a bold and glossy look is desired.

13 oz vinyl banner material is typically made of PVC (polyvinyl chloride), a synthetic plastic polymer known for its durability, weather resistance, and flexibility. PVC is reinforced with additives and plasticizers to enhance its strength and make it suitable for outdoor use. Additionally, some variations of 13 oz vinyl may include a polyester scrim layer for added stability and tear resistance.

15oz Vinyl

15 oz vinyl banner material refers to a thicker and heavier type of vinyl commonly used for making banners, signage, and other large-format displays. It is named "15 oz" because it typically weighs 15 ounces per square yard, indicating its thickness and durability.

Similar to 13 oz vinyl, 15 oz vinyl banner material also comes in different types based on their surface finish.

1. **Matte Vinyl**: Matte vinyl has a smooth, non-reflective surface finish that reduces glare and ensures clear visibility even in bright lighting conditions. It provides a professional appearance and is suitable for indoor and outdoor applications.

2. **Gloss Vinyl**: Gloss vinyl has a glossy, reflective surface finish that enhances colors and graphics, making them appear vibrant and eye-catching. It is ideal for applications where a bold and glossy look is desired to attract attention.

Both 13 oz and 15 oz vinyl banner materials are typically made of PVC (polyvinyl chloride), a synthetic plastic polymer known for its durability, weather resistance, and flexibility. PVC is reinforced with additives and plasticizers to enhance its strength and make it suitable for outdoor use. Additionally, some variations of these vinyl materials may include a polyester scrim layer for added stability and tear resistance.

18oz Vinyl

18 oz vinyl banner material is a heavy-duty type of vinyl commonly used for making banners, signage, and other large-format displays. It is named "18 oz" because it typically weighs 18 ounces per square yard, indicating its thickness and durability.

Similar to lighter weight vinyl materials, 18 oz vinyl also comes in different types based on their surface finish:

1. **Matte Vinyl**: Matte vinyl has a smooth, non-reflective surface finish that reduces glare and ensures clear visibility even in bright lighting conditions. It provides a professional appearance and is suitable for indoor and outdoor applications.

2. **Gloss Vinyl**: Gloss vinyl has a shiny, reflective surface finish that enhances colors and graphics, making them appear vibrant and eye-catching. It is ideal for applications where a bold and glossy look is desired to attract attention.

18 oz vinyl banner material is typically made of PVC (polyvinyl chloride), a synthetic plastic polymer known for its durability, weather resistance, and flexibility. PVC is reinforced with additives and plasticizers to enhance its strength and make it suitable for outdoor use. The heavier weight of 18 oz vinyl compared to lighter weights like 13 oz or 15 oz provides it with added rigidity and tear resistance, providing increased durability and longevity for banners and signage.

2x3 Custom Vinyl Banners Finish Options

Before placing your order, it's a good idea to view and decide on the following detailed options. **Free Hems and Grommets.**

HEMS

Hems are an essential part of any vinyl banner, especially those with grommets. The sewing process creates a clean and strong edge that helps to increase durability; however, hems created by welding offer even more benefits than just their strength! Welding creates such a bond between material which holds it tight in high winds or heavy use cases like logos being affixed onto banners during events where they might get wet from spilled drinks on stage - so not only do these durable edges last longer but also look better too!!

Grommets

Grommets are metal rings inserted into holes through vinyl material, colored on each side to keep them held securely in place. They prevent tearing or abrasion of material from the support line being routed through these narrow channels; this not only makes custom banners more durable but also gives them a professional look that's hard to achieve with any old printed piece! When choosing a gated banner design for your business make sure you ask about whether they come equipped with logo - because if there's one thing we learned while working here at Banner Printing Services Inc., it's that every good company needs its logo showing off proudly across all whose products/services represent what matters most.

POLE POCKETS

Pole pockets are a great way to prevent your vinyl banner from sagging and they also allow you the option of adding rigid poles or dowels along its edges. These accessories will help distribute weight more evenly, giving these corners less room for droop! Additionally, if both sides use opposing pole pocket designs then it becomes even stronger; perfect in applications where we want our signs durable enough not only to withstand wind but possible rains too!

WIND SLITS

Wind can easily tear through a banner if it's not securely fastened, so one way to prevent this from happening is by using shutters. You may have seen these on businesses that display their advertisements for all passersby to see - but what do they do? Well, when deployed in high winds conditions like those found at sea or atop buildings during storms Shutters help reduce stress caused by strong gusts of air pushing against the fabric while still allowing light through as before!

3x2 vinyl Banner Printing Processing Time and Turnaround

Print Proofs

When you request a digital print proof, we prioritize ensuring your satisfaction with your order. You will receive your proof to review within 24 hours of placing your order. For urgent needs, our Rush Service guarantees delivery of the proof within just 3 business hours. We understand that adjustments may be necessary to achieve the perfect result. If you are not entirely happy with the proof, you can inform us of the needed adjustments in your response. Alternatively, you can attach a new artwork file for us to work with. Please ensure that you provide the correct email address when placing your order and regularly check your email to avoid missing our communications. Your satisfaction is our priority, and we are committed to providing you with excellent service every step of the way.

Shipping

We offer a range of UPS shipping services to ensure timely and reliable delivery of your orders. Our services include Ground shipping with an estimated delivery time of 4 to 7 business days, as well as expedited options such as 3-day transit, 2-day transit, and 1-day transit for faster delivery. Additionally, we provide Saturday delivery where available in your area, offering added convenience for receiving your packages over the weekend. Once your order is shipped, you will receive an email notification containing the shipment tracking number, allowing you to easily track the status and location of your package through UPS Tracking. Alternately, you can log in to your account on our website to retrieve your tracking number and monitor the progress of your shipment. Please note that the estimated shipping time provided by UPS is separate from the processing and turnaround/production time for your order. While we strive to process orders promptly, please keep in mind that processing times may vary depending on factors such as order volume and product availability. With our variety of UPS shipping services and efficient tracking options, we aim to provide a seamless and convenient shipping experience for our customers.

Turnaround and Processing Time

After submitting your personalized designs, you will receive an automatic confirmation email. Within 24 hours, a digital print proof will be sent to you via email for your review. Simply respond to the proof email to initiate the processing of your order. Once the digital print proof is approved, your order will be promptly printed and shipped within 48 hours, ensuring a seamless and efficient experience from start to finish. For customers in need of expedited service, our "Rush Service" option guarantees same-day shipping if the final proof is received before 12:00 pm, or next-day shipping if received after 12:00 pm. Additionally, we ensure quick production times for all orders, with most orders shipped within 3 business days. Experience fast and reliable shipping for your Custom Banner at Bannerstore.com is as easy as 1-2-3: Choose your product, select product options and turnaround, upload your artwork or design using our online design tool, choose your shipping method, and checkout! Once you have added your product to your cart and completed the checkout process, you are all set.

Rush Service - Same Day Print and Ship

If you are looking to expedite your Custom Banner order processing time, choose our Same Day Print and Ship option. Orders approved for printing before 12 pm (EST) will be printed and shipped on the same day. Orders approved after 3 pm will be shipped the following day. With our Same Day Print and Ship service, you will receive proof of your artwork within 3 business hours from the time of placing your order. Please note that there is a fee associated with ordering Same Day Print and Ship Service. Contact us for more information.
